

“You are a person of high character and demonstrate this on a daily basis with your family and your staff. You have developed your practice to become one of the most efficient and profitable medical practices I know of and I am extremely proud to be associated with you.” *Practice Affiliate*

Physician-owned, Physician-run Means Patient Care Comes First

Our guiding principle is what's best for dermatology patients:

- Dermatology-specific EMR by Modernizing Medicine: EMA Dermatology®
- Dermatopathology patient care partner, Miraca Life Sciences, provides state-of-the-art diagnostics and service excellence
- Billing partner, Med Select Services Inc., expert in dermatology specific coding and experienced in revenue optimization
- Meaningful Use expert consultants to ensure our superior quality of care is recognized by payers with a minimum of administrative work by providers

Our focus on quality care, teamwork, and efficiency means that everyone's ideas and input are valued and allows for rapid implementation of good ideas as well as immediate response to ever-changing insurance requirements (i.e. Meaningful Use / MIPS / MACRA).

Specialized Practice with a Strong Track Record – Over 200 Melanomas Diagnosed Since 2009

“I am overwhelmed by your success in finding melanomas in the population.” - Former Medical Director of Dermatology, Massachusetts General Hospital

Dermatology is all that we do—everything is geared specifically for the needs of dermatology patients and providers, including: exam and surgical room design, efficient patient flow, efficient procedural setup which allows for immediate performance of procedures.

Our practice benefits from over three decades of experience in dermatology with a reliable track record for growth, fiscal responsibility and dedication to excellence in patient care.

Established, Experienced, Excellent Dermatology Trained Team

It takes years to build a solid team. Since 2011, we have worked attentively to create a cohesive team that utilizes everyone's strengths and talents to function seamlessly and effectively.

We strive to create a supportive atmosphere where people take time to teach others and help one another.

Established, Robust, Diverse Referral Base

With an excellent reputation in our medical community and a referral area that grows daily, PMD's preferentially refer to our practice—if desired, providers can be fully booked from Day 1!

Experienced, Dedicated Dermatologist Highly Trained and Experienced in Dermatology and Dermatology Management

- Close mentorship in a nurturing, stable and supportive environment is key to learning how to care for patients in the real world after training.
- No need to reinvent the wheel or learn by trial-and-error – procedures and systems are already in place and optimized for best dermatology patient care.
- Private practice without the hassles – choose your desired level of involvement in practice management and administrative work!

2009	Dr. McAllister joins Dr. Horn's dermatology practice (established in 1983). Staff of 3, closed to new patients.
2010	Hired first Nurse Practitioner to join the team
2011	Dr. Horn retires and Dr. McAllister takes over the practice, naming it Dermatology Associates of Ithaca
2011-16	Dermatology Associates of Ithaca grows to include four Physician Assistants with a staff of 12 and celebrates its 5 th Anniversary
Goal	Continue to decrease new patient wait times and increase access in response to community need
